

NOTIFICATION PURSUANT TO
SECTION 6 OF DSHEA

In compliance with Section 6 of the Dietary Supplement Health Education Act (DSHEA) and Rule 21 C.F.R. 101.93, this Notification is filed on behalf of the following manufacturer of **Schiff® JointFree™ Product #11822** bearing the statements set out below:

Weider Nutrition International, Inc.
2002 South 5070 West
Salt Lake City, Utah 84104

The text of each structure-function claim for is as follows:

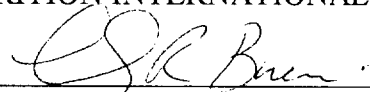

- (Statement 1) Joint Free™ is the patented form of hydrolyzed collagen that has been clinically shown to improve joint function in active adults. In recent clinical tests, this unique form of hydrolyzed collagen has been shown to help joint mobility and maintain the structural integrity of cartilage and other joint tissue.
- (Statement 2) Supplied essential building blocks for cartilage maintenance.
- (Statement 3) This is a natural product that works gradually to help restore joint and cartilage tissue.
- (Statement 4) Schiff® JointFree™ is an unflavored powdered drink mix that can be conveniently added to your favorite hot or cold beverage and is designed to give your joints the nutritional support they need every day. A single daily serving of JointFree™ provides 10 grams of patented hydrolyzed collagen, the amount shown in clinical trials to be effective in supporting healthy joint function.
- (Statement 5) Hydrolyzed collagen supplies amino acids and peptides that form the building blocks your body uses to rebuild cartilage and joint tissue.
- (Statement 6) Hydrolyzed collagen is particularly helpful for people whose joints are experiencing added stress from physical exercise, extra weight or the natural aging process.
- (Statement 7) As shown by extensive clinical testing, the hydrolyzed collagen in JointFree™ is easily digested and is completely safe for daily use. Collagen has been on the U.S. FDA's list of products that are "generally recognized as safe" for over 60 years.
- (Statement 8) Clinically shown to support healthy joint function.
- (Statement 9) Supplies the raw materials your body needs to rebuild cartilage.
